Engagement, loyalty and social impact. What a win-win-win!

What is important to your organisation?

Do you care about your culture, employee engagement, your customers, giving back to the community? If you answered ‘all of the above,’ implementing an employee program is about to change your life.

We are looking for great people to solve a big problem. You can be the one that makes it happen.

Employee giving, also known as Workplace Giving, is a simple, yet cost-effective way for your organisation and your people to be part of the solution.

Staff donations are deducted from their regular pay. The deduction is made from pre-tax pay, providing an immediate tax benefit and removing the need to collect receipts.

If you are a values driven organisation, you can mobilise the goodness of your amazing people with ease.

70% of employees cited they would be more loyal to a company that helps them contribute to social and environmental issues

- 66,000 Employees Have Spoken: They Want To Work For Companies That Give Back December 2019

How to set up and administer. It’s so easy.

1. Encourage staff to participate by downloading an Authorisation form or contact us to learn more about employee giving program providers.

2. Have your business send the staff contributions and the matching contributions to SolarBuddy.

3. Talk to us about how to grow your program, make it more engaging, even more impactful!

We’d love to help, so let us know what’s on your mind.
